

# Digital Timestamp Certificate - OpenTimestamps

This certificate confirms that the content of the project 'Eloop Token' was digitally timestamped using blockchain technology through the OpenTimestamps tool, which utilizes the Bitcoin network to record immutable proof of data existence.

## Timestamp Details:

- Project Name: Eloop Token
- Author: Sérgio Maffioletti
- Protected File: eloop-token-protecao.html
- SHA256 Hash: 120c8787a32a47aa3bf091839456f3b65babf14c9952e809dd2acc1232055016
- Timestamp File: eloop-token-protecao.html.ots
- Date Created: 15/04/2025 23:36

This timestamp can be publicly verified once the OpenTimestamps network is fully accessible again. Please keep this certificate along with the original .html and .ots files.

*OpenTimestamps is a decentralized service that proves the existence of data at a specific moment in time using the Bitcoin blockchain. Learn more at: <https://opentimestamps.org>*
